Jubilee, 125th Anniversary Quilt

This stunning new line of Bernetex fabrics was designed by Amanda Murphy especially for BERNINA's 125th Anniversary. The elaborate gold paisley designs compliment the special edition anniversary machines beautifully and the coordinating black and rose prints add a lovely accent to the full collection. The "Jubilee" quilt is a dazzling golden masterpiece with piecework, embroidery and ruler quilting all wrapped up in one project. The instructions are well written and will guide you step by step through the cutting and piecework. The "Jubilee" design pack has all the embroidery designs needed to do the embroidered motifs throughout the quilt as well as some quilting in the hoop designs that can be used on your embroidery machine or a BERNINA Q Series machine to quilt your empty spaces. If you do not have an embroidery machine, don't fret... Amanda didn't forget you. She designed several gorgeous panels with the preprinted embroidery motifs which can be used to applique onto your quilt. Also available to purchase is an Amanda Murphy ruler collection specially designed to quilt the paisley blocks and geometric shapes on the outer borders.

We are anxiously waiting to receive the rest of the fabric line so that we can set the wheels in motion to stitch out a shop sample and put together the kits for you. We are taking pre-orders now for the quilt kits, design packs, or ruler sets so if you are interested then please let us know so we can reserve these products for your when they do come in. Also keep on eye open for class schedules on this project in our upcoming newsletters and let us know if you are interested in joining us.

Please note that the Jubilee fabric kit, embroidery designs and ruler kit are FREE with the purchase of the BERNINA 770 QE, BERNINA 790, and BERNINA 880 Anniversary Edition machines...

This quilt is made up of a variety of interesting regular pieced blocks and starting in September you will come in once every other week for ten weeks and we will attack some new blocks each month. You will need to cut using your rotary cutter and ruler, piece using an accurate $\frac{1}{4}$ " seam allowance and properly press your blocks as you go. So be inspired to pull out that package and get at it instead of stashing it away in some forgotten place for the next ten years! There will be some homework that will need to be done at home between classes. Also, there are kits and patterns still available to purchase for those of you that could not participate in the Shop Hop Tour but would still like to do the quilt.
